- 26.1.2 The College must use the Funding solely for the purpose of delivering the Services as set out in this Agreement.
- 26.1.3 The College will comply with the Funding Rules published by the Department as amended from time to time.
- 26.1.4 The Department reserves the right to impose additional conditions of funding where it considers it is necessary to do so to secure the delivery of education and training of a reasonable quality by the College, or to ensure that the resources provided by the Department are being used effectively and efficiently or to require the College to address concerns about its financial viability.
- 26.1.5 Payment by the Department will be without prejudice to any claims or rights, which the Department may have against the College and will not constitute any admission by the Department as to the performance by the College of its obligations hereunder. Prior to any such payment, the Department will be entitled to make deductions or deferments in respect of any disputes or claims whatsoever with or against the College, arising from this Agreement or any other Agreement between the College and the Department.

Such amounts may be recovered by making adjustments to data submitted by the College under the Agreement, or by raising an invoice for payment by the College, or making deductions from future payments due to the College under the Agreement in the timescales as advised by the Department. Failure to settle such amounts by the College will constitute a Serious Breach under Clause 34 (Minor and Serious Breach) of the Agreement. The decision of the Department as to the amount of recovery under this clause is final.
- 26.1.8 Where the Department, in accordance with Clause 26.1.7, identifies errors it may at its discretion review the controls and processes to gain assurance the errors will not occur again. Where further assurance work is required this will be at the College's cost (or the Department will procure and recharge to the College at its sole discretion). Where a full funding audit results in a "qualified" rating this will constitute a Minor Breach.
- 26.1.9 The Department may implement a reduction in funding as set out in the Funding Rules through a notification and not a variation pursuant to Clause 44 (Amendments to this Agreement).
- 26.1.10 All payments by the Department will be made via BACS.

(In the event where the College has an existing Protective Marking Scheme then the College may continue to use this but must map the HMG security classifications against it to ensure the correct controls are applied to the Departmental Data).
- 1.5 Departmental Data being handled in the course of providing an ICT solution or Service must be segregated from all other data on the College’s or sub-contractor’s own IT equipment to protect the Departmental Data and enable the data to be identified and securely deleted when required. In the event that it is not possible to segregate any Departmental Data then the College and any sub-contractor will be required to ensure that it is stored in such a way that it is possible to securely delete the data in line with Clause 1.14.

Where sanitisation or destruction is not possible for legal, regulatory or technical reasons, such as a Storage Area Network (SAN) or shared backup tapes, then the College or sub-contractor will protect the Department's information and data until the time, which may be long after the end of the Agreement, when it can be securely cleansed or destroyed.
- 1.16 Access by College or sub-contractor staff to Departmental Data will be confined to those individuals who have a "need-to-know" in order to carry out their role; and have undergone mandatory pre-employment screening, to a minimum of HMG Baseline Personnel Security Standard (BPSS); or hold an appropriate National Security Vetting clearance as required by the Department. - 1.19 Any suspected or actual breach of the confidentiality, integrity or availability of Departmental Data being handled in the course of providing this Service, or any non-compliance with these Departmental Security Standards for Contractors, or other Security Standards pertaining to the solution, will be investigated immediately and escalated to the Department by a method agreed by both parties.
- 1.20 The College will ensure that any IT systems and hosting environments that are used to handle, store or process Departmental Data will be subject to independent IT Health Checks (ITHC) using a NCSC approved ITHC provider before go-live and periodically (at least annually) thereafter. The findings of the ITHC relevant to the Service being provided are to be shared with the Department and all necessary remedial work carried out. In the event of significant security issues being identified, a follow up remediation test may be required.

- 1.21 The College or sub-contractors providing the Service will provide the Department with full details of any storage of Departmental Data outside of the UK or any future intention to host Departmental Data outside the UK or to perform any form of ICT management, support or development function from outside the UK. The College or sub-contractor will not go ahead with any such proposal without the prior written agreement from the Department.
- 1.22 The Department reserves the right to audit the College or sub-contractors providing the Service within a mutually agreed timeframe but always within seven days of notice of a request to audit being given. The audit will cover the overall scope of the Service being supplied and the College's, and any sub-contractors, compliance with the clauses contained in this Section.
- 1.23 The College will contractually enforce all these Departmental Security Standards for Contractors onto any third-party suppliers, sub-contractors or partners who could potentially access Departmental Data in the course of providing this Service.

College and sub-contractors will support the provision of appropriate evidence of assurance and the production of the necessary security documentation such as completing the DfE Security Assurance Model (DSAM) process or the Business Service Assurance Model (BSAM). This will include obtaining any necessary professional security resources required to support the College's and sub-contractor's security assurance activities such as: a NCSC Certified Cyber Security Consultancy (CCSC) or NCSC Certified Professional (CCP) Security and Information Risk Advisor (SIRA).

ESF Match Funding 2019/20

In accordance with Clause 15 of Schedule 1 (ESFA Adult Education Budget Specification) and/or Clause 21 (Apprenticeships Carry-in Specification) of your Education & Skills Contract, I can confirm that we intend to use the funding provided to your organisation by the Secretary of State for Education (acting through the Education and Skills Funding Agency (the Department)), for the delivery of education and training in the 2019/20 Funding Year as match funding for the 2014-20 European Social Fund (ESF) programme.

What is ESF match?

As an ESF Co-Financing Organisation (CFO) we deliver a programme of activity to tackle worklessness and workplace skills issues. To be able to draw down ESF funds, we need to fund an equal amount of similar activity from other budgets: this is known as 'match funding'. We are working with LEPs to deliver £650m of ESF funding between 2014 and 2020. This will enable people to enter work or improve their workplace skills, but we can only do this if we can identify and document match funding and associated learners. Learner information from providers will enable us to draw down ESF funds for the benefit of people in England.

We use match funding on a programme basis, specifically programmes that fall within the scope of the two ESF priorities: Inclusive Labour Markets and Skills for Growth. The list below identifies the programmes that are currently within scope as the source of our ESF match funding.

- ESFA Adult Education Budget
- Apprenticeships Carry-In (learners who started on an Apprenticeship before 1 May 2017)
- Non-levy apprenticeships training in the 2019/20 academic year

What is required?

You must read the Funding Rules for match funding for full details.

In order to comply with the Funding Rules, you are required under the terms of your funding agreement to:

- Display an ESF poster prominently in your premises (if you also deliver ESF funded provision you will have these from your ESF contracts);
- Have in place Gender Equality and Equal Opportunities and Sustainable Development policies and action plans;
- Inform all learners that they are on a programme part financed by ESF;
- Retain documentation for audit including having in place a document retention policy that reflects the minimum date requirement of 31 December 2030.
- Participate in evaluations, surveys and reporting as required.

Please note that this provision may also fall within scope for the Department for Work and Pensions, Government Internal Audit Agency, National Audit Office and European Commission auditors who inspect the ESF programmes.

Employment status of learners

The employment status of learners is important for ESF programmes to confirm learner eligibility for the funded activity. It is very important that the correct initial employment status is used. The ILR specification information for this field states that when a learner first enrolls with a provider, this field must be completed with the learner's employment status **prior to enrolment or the programme start date**. To ensure that the Department can maximise match funding for unemployed programmes, where a learner has been unemployed prior to starting the learning programme their employment status must be shown as 'not in paid employment'. Evidence of this status must be retained.

ESF publicity and logo

It is an ESF requirement that projects, ESF funded and match funded, acknowledge the support of ESF and the European Union. You must do this by displaying a self-developed ESF poster in your main premises, where it can be seen by visitors and learners (for example, in the reception area). It must be positioned in a prominent location clearly visible to staff, participants and others using the building, and have the following information.

- Name of the project
- Name of the Funding Stream (European Social Fund)
- Brief description of the activity supported by the project
- The full logo for the European Social Fund

A main location is the most commonly attended location by participants at each provider (and each of their sub-contractors) during the lifetime of the project. You and your sub-contractors are asked to determine this on the basis of the location that you expect to receive the highest number of participants. Larger providers and sub-contractors can display additional posters where there are a number of other well-attended locations.

The ESF logo and reference to the European Union must be located on learner enrolment forms, training materials and websites as a minimum requirement. When you use the ESF logo, you must use the logo for the 2014-20 ESF programme.

You can download poster templates, full publicity guidelines, and ESF logos from GOV.UK: <https://www.gov.uk/government/publications/european-structural-and-investment-funds-programme-guidance>

Informing learners

During induction providers must inform learners that they are part funded by ESF. Learners will need to sign documents to evidence that they have been informed, providers must maintain and retain this documentary evidence.

A short video covering the background of ESF, what it does, how it helps and who benefits is available on the European Union website: <http://ec.europa.eu/esf/home.jsp>

Learner Data

The data for your match will contribute to the achievement of the programme targets and it is important that critical fields are completed as fully as possible and 'not knowns' are avoided. The critical fields are:

- Employment status
- Prior attainment
- Household situation
- Destination
- Learner contact details for surveys, especially phone numbers

Document retention

You must retain all documents for audit purposes that verify your provision and the eligibility of the learners for 3 years from the final payment from the EU to the Government. This is expected to be 31 December 2030 at the earliest.

We will notify you of any changes to this date in writing.

This documentation includes learner records (including Additional Learner/Learning Support where appropriate); payment information relating to the contract/funding stream; Publicity, Gender Equality and Equal Opportunities and Sustainability policies.

Organisations involved in delivering the ESF programme are required to have a Document Retention Policy that reflects the required retention date and confirmation that the policy is subject to regular review. Information on the archiving and electronic storage, can be found on GOV.UK:

<https://www.gov.uk/government/publications/european-structural-and-investment-funds-programme-guidance>.

If the safe retention of this evidence is at risk for any reason, e.g., you or a subcontracting organisation are closing down, then you **must** contact the Education and Skills Funding Agency immediately to discuss alternative storage arrangements.

If you have any questions, please contact your local territorial team contact.

Yours sincerely
